NFORMATION

REGISTRATION FEE

Only 12 places are available for the full course, including attendance to the handson section, at a fee of €2.440,00 VAT 22% included. As we strongly believe in the importance of multidisciplinarity, in case of a surgical team (otorhinolaryngologist and neurosurgeon), a reduced registration fee will be applied to both members, equal to €2.196,00 VAT 22% included.

The fee includes: entrance to the course, course material, certificate of attendance. coffee and tea breaks, lunches and social dinner. Only six places for Observers are available at the reduced fee of €976,00 VAT 22% included. The fee includes entrance to the course with observation of the hands-on phase in the anatomy laboratory, attendance of the live surgery section, certificate of attendance, coffee and tea breaks, lunches and social dinner. The registration must be sent to the Organizing Secretariat within June 2nd via fax or e-mail, along with the payment.

INTERNATIONAL SUMMER SCHOOL JULY3 72017 **BRESCIA - ITALY**

TRANSNASAL **ENDOSCOPIC** SURGERY: **FROM SINUSES TO SKULL BASE**

HANDS-ON ANATOMY LABORATORY AND LIVE SURGERY

Aim of this course, which is now in its third edition, is to offer an overview of the applications of trans-nasal endoscopic surgery, starting from simple procedures performed under local anesthesia to more extensive operations adopted for inflammatory disease, benign and malignant sino-nasal tumors, skull-base diseases, sellar and parasellar lesions, down to the clivus, nasopharynx and craniovertebral junction.

Also thanks to the University of Brescia support, the course will provide a hands-on section, followed by a live surgery phase.

The first three days will be dedicated to the endoscopic endonasal dissection of injected, fresh frozen specimens. At the Gross Anatomy Laboratory of the University of Brescia directed by Prof. Luigi F. Rodella each working station is complete of endoscopic skull base surgery equipment, as well as CT-based navigation. Two participants and one observer will be assigned to each station and will be supervised by at least one faculty member to allow for a personalized tuition. Each step will be preceded by 3D-HD videos explained by the faculty members.

The following two days will be dedicated to live surgery, with three running operating rooms, in which different operations will be shown and discussed step by step. As well as watching the operations from the connected meeting room, participants and observers will have the chance of observing surgery directly in the OR. Lectures will be provided by the local and international faculty, all recognized leaders not only in the fields of endonasal endoscopic surgery and endoscopic skull base surgery, but also in other essential specialties, such as radiology and pathology.

Aim of the course is indeed to provide a thorough journey in this exciting field, showing the importance of multidisciplinarity, from the anatomy laboratory to the clinical, multispecialty collaboration.

Five intense days are awaiting for you with the chance of interacting directly and informally with world experts in the field.

The course includes an informal social dinner with all faculty and participants on Thursday July 6th.

Aim of all the faculty is to share their expertise with you.

We look forward to seeing you in Brescia!

PROGRAM

HANDS-ON SECTION ••• **DAY 1**

Gross Anatomy Laboratory University of Brescia

8:00 Registration

8:15

Welcome address P. Nicolai, M. Fontanella, L.F. Rodella

8:30

An endoscopic journey of the skull base P. Nicolai

9:00

Endoscopic sinonasal anatomy: landmarks, tips and pitfalls F. R. Canevari

9:20 - 12:30

Hands on dissection Modular transphenoidal approaches

12:30 - 13:30 Lunch

13: 30 - 17:00

Hands on dissection Transellar, transtuberculum, transplanum approaches and reconstruction

HANDS-ON SECTION ••• DAY 2

Gross Anatomy Laboratory University of Brescia

8:30 Imaging of skull base anatomy and disease R. Maroldi

9:00 - 12:30

Hands on dissection Endoscopic medial maxillectomies Transpterygoid approach to the cavernous sinus and petrous apex

12:30 - 13:30 Lunch

13:30 - 17:00 Hands on dissection Transmaxillary approach to the infratemporal fossa

••• DAY 3

Gross Anatomy Laboratory University of Brescia

8:30 Anterior skull base endoscopic anatomy P. Battaglia

9:00 - 12:30

Hands on dissection Transcribriform approach Transclival approach and odontoidectomy

12:30 - 13:30 Lunch

13:30 - 17:00

Hands on dissection Temporoparietal fascial flap for posterior skull base reconstruction Endoscopic approaches to the orbit

8:00

8:15

8:30 - 17:30 Live surgery and lectures

LIVE SURGERY SECTION ••• DAY 4

Didactic room - Spedali Civili Brescia

Introduction to the live surgery section of the course P. Nicolai, M. Fontanella

Clinical cases of the day

Lectures of the day: Endoscopic surgery for sinonasal malignancies

Endoscopic approaches to the coronal plane: indications and complications

Pituitary adenomas P. Cappabianca

Imaging of sellar and parasellar

LIVE SURGERY SECTION ••• DAY 5

JULY3172017

Didactic room - Spedali Civili Brescia

8:00 Clinical cases of the day

8:30 - 16:00 Live surgery and lectures

Lectures of the day: Multiportal endoscopic approaches to the skull base P. Castelnuovo

Cavernous sinus endoscopic surgery G. Frank, E. Pasquini

Transphenoidal surgery for craniopharyngiomas F. Gentili

Endonasal endoscopic surgery for meningiomas D. Locatelli

Endonasal endoscopic surgery for clivus chordomas D. Bresson

Large and Giant sellar and sovrasellar tumors: should craniotomy be the first choice? R. Stefini

TRANSNASAL ENDOSCOPIC SURGERY: FROM SINUSES TO SKULL BASE
