

EUSICA/INSICA-Brain/REFCOR Meeting Paris 2025

Annual Meeting of the European and International Network for Sinonasal Cancer Research
and of the French Expert Network on Rare Head and Neck tumors

April 10-11 2025

Le Réfectoire des Cordeliers, Paris

SCIENTIFIC PROGRAM CO-CHAIRS:

Antoine MOYA-PLANA (Gustave Roussy Cancer Campus, Université Paris Saclay, France)
Benjamin VERILLAUD (Hôpital Lariboisière, Université Paris Cité, France)

KEYNOTE LECTURES

Caroline Robert (Gustave Roussy Cancer Campus, France)
Melvin Chua (National Cancer Center, Singapore)

CONFIRMED SPEAKERS

Bradley Goldstein (Duke University, USA)
Carlo Resteghini (Humanitas University, Italy)
Caroline Even (Gustave Roussy Cancer Campus, France)
Cassie and Jean-Baptiste Toulouse (SMARCB1-Hope)
Catherine Rennie (Imperial College Healthcare Trust, London, UK)
Charles Dupin (CHU de Bordeaux, France)
Christian von Buchwald (University of Copenhagen, Denmark)
Damien Bresson (Foch Hospital, France)
Davide Mattavelli (University of Brescia, Italy)
Erich Vyskocil (Medical University of Vienna, Austria)
François-Régis Ferrand (Gustave Roussy Cancer Campus, IRBA, France)
Garret Choby (University of Pittsburgh, USA)
Glenn Hanna (Dana-Farber Cancer Institute/Harvard Medical School, USA)
Jana Zajacova (Piedmont Sinonasal Cancer Registry, Italy)
Jens Peter Klußmann (University Hospital of Cologne, Germany)
Johannes Rijken (University Medical Center Utrecht, The Netherlands)
Juliette Thariat (Université de Caen Normandie, France)
Kenneth Wong (The Chinese University of Hong Kong, China)
Laura Van Gerven (KU Leuven, Belgium)
Lifeng Li (Beijing Tongren Hospital, Capital Medical University, China)
Lisa Rooper (Johns Hopkins University, USA)
Ludovic de Gabory (CHU de Bordeaux, France)
Mads Guldager (University of Copenhagen, Denmark)
Marion Classe (Sanofi, France)
Marco Ferrari (University of Padua, Italy)
Mario Hermens (ISPA Instituto Universitário Oviedo, Spain)
Mario Turri-Zanoni (University of Insubria, Italy)
Marlene Speth (Imperial College Healthcare Trust, London, UK)
Matt Lechner (University College London, UK)
Nyal London (Johns Hopkins University, USA)
Paolo Bossi (University of Brescia/Humanitas University, Italy)
Philipp Jurmeister (Ludwig-Maximilians-University, Munich, Germany)
Philippe Herman (Université Paris Cité, France)
Pierre Blanchard (Gustave Roussy Cancer Campus, France)
Ralph Abi Hachem (Duke University, USA)
Robbie Woods (Beaumont Hospital, Ireland)
Samuel Leong (Liverpool University Hospitals NHS Foundation Trust, UK)
Sandra Nuyts (KU Leuven, Belgium)
Shirley Su (The University of Texas MD Anderson Cancer Center, USA)
Teppei Takeda (The Jikei University School of Medicine, Tokyo, Japan)
Valérie Costes-Martineau (University Hospital of Montpellier, France)
Yoko Takahashi (The University of Texas MD Anderson Cancer Center, USA)

EUSICA/INSICA-Brain/REFCOR Meeting Paris 2025

Dear Colleagues, dear Friends,

On behalf of the European and International Network for Sinonasal Cancer Research (EUSICA – INSICA/Brain) and of the French Expert Network on Rare Head and Neck tumors (REFCOR), we are happy to invite you to join us in Paris on April 10-11, 2025, for the next edition of the EUSICA – INSICA/Brain – REFCOR meeting.

This will be a unique opportunity to bring together all the specialists involved in the management of sinonasal and skull base malignant tumors : basic research, epidemiology, pathology, surgery, medical and radiation oncology... All aspects of these rare and diverse tumours will be addressed and covered by a multidisciplinary panel of world-renowned experts.

The conference will include sessions on specific tumor types, including Keynote Lectures on sinonasal melanoma (Caroline ROBERT, Gustave Roussy Cancer Campus, France) and nasopharyngeal carcinoma (Melvin CHUA, National Cancer Center, Singapore) but also round tables and sessions on universal issues such as Patient Reported Outcomes Measures, quality of life, and medical education.

The Congress will take place at the « Réfectoire des Cordeliers », a pleasant venue close to Saint Germain des Prés, in central Paris. A Gala dinner will be organized in a typically Parisian setting.

We hope you will enjoy the combination of high level scientific communications and a friendly, collaborative atmosphere.

See you soon in Paris !

Antoine Moya-Plana & Benjamin Verillaud

DAY 1 – THURSDAY 10 APRIL 2025

8.30-8.45: Introduction and welcome, short presentation of EUSICA, INSICA-Brain, REFCOR (Matt Lechner, Nyall London, Robbie Woods, Caroline Even, Ludovic de Gabory, Antoine Moya-Plana, Benjamin Verillaud)

8.45-10.30: SWI-SNF deficient tumors (Moderator: TBC)

- SWI-SNF deficient tumors: an overview (Valérie Costes-Martineau)
- Multimodal treatment in SMARCB1 deficient carcinomas: current evidence (Robbie Woods)
- Molecular pathology of SMARCB1 deficient sinonasal carcinoma (Philipp Jurmeister)
- New preclinical models of SMARCA4 deficient tumors (Mario Hermsen)
- The patients' perspective (Cassie and Jean-Baptiste Toulouse)
- Round Table (Valérie Costes-Martineau, Robbie Woods, Mario Hermsen, Cassie and Jean-Baptiste Toulouse)

10.30-11.00: Coffee break

11.00-1.00 pm: Multimodal treatment of sinonasal tumors: recent advances (Moderator: Matt Lechner)

- KEYNOTE LECTURE: Focus on immunotherapy in sinonasal melanoma (Caroline Robert)
- Current clinical trials in sinonasal malignancies (Caroline Even)
- Proton therapy in sinonasal malignancies and NPC: what indications in 2025? (Sandra Nuyts)
- Anatomical mapping for the planning of post-operative radiotherapy (Juliette Thariat)
- Added value of surgical navigation in the treatment of sinonasal cancer (Marco Ferrari)
- Olfactory neuroblastoma: experimental models and identification of new therapeutic targets (Bradley Goldstein)
- Introducing the 2025 ESMO-EURACAN Clinical Practice Guidelines on Sinonasal Malignancy (Carlo Resteghini)

1.00-2.00 pm: Lunch

2.00-3.15 pm: Treatment of sinonasal malignancies: complications and morbidity (Moderator: TBC)

- Intracranial septic complications after anterior skull base surgery (Damien Bresson)
- QoL assessment in sinonasal cancer: the CORSICA experience (Garret Choby)
- PROMs in sinonasal cancer: validation of a new specific QoL assessment tool (Shirley Su)
- Round Table (Damien Bresson, Teppei Takeda, Garret Choby, Shirley Su, Mads Guldager)

3.15-4.00 pm: Clinical cases (Tumor Board/MDT panel) (Moderator: Glenn Hanna - Panelists: Paolo Bossi, Sandra Nuyts, Sam Leong)

4.00-4.30 pm: Coffee break

4.30-5.00 pm: Young investigator session (Moderator: Yoko Takahashi)

5.00-6.00 pm: Medical education (Moderator: Catherine Rennie)

- Medical education in the field of skull base tumors: the experience of the "Skull base diploma" (Philippe Herman)
- Development of a new technical skills assessment tool in ESS-Future perspectives in skull base surgery (Mads Guldager)
- 3D models in skull-base surgery and ICA injury models (Samuel Leong - Erich Vyskocil)
- Round Table (Panelists: Philippe Herman, Mads Guldager, Samuel Leong, Erich Vyskocil, Marlene Speth)

DAY 2 – FRIDAY 11 APRIL 2025

8.30-9.45: HPV and sinonasal malignancies (Moderator: Christian von Buchwald)

- HPV-related sinonasal malignancies: an overview (Glenn Hanna)
- Diagnostic tools in HPV-related sinonasal malignancies (Jens Peter Klußmann)
- HPV and sinonasal SCC (Nyall London)
- HPV-related multiphenotypic carcinoma (Lisa Rooper)
- Round Table (Panelists: Glenn Hanna, Jens Peter Klußmann, Nyall London, Lisa Rooper)

9.45-10.30: Clinical cases (Tumor Board/MDT panel) (Moderator: Garret Choby - Panelists: Johannes Rijken, François-Régis Ferrand, Charles Dupin, Ralph Abi-Hachem)

10.30-11.00: Coffee break

11.00-1.00 pm: Nasopharyngeal carcinoma (Moderator: Pierre Blanchard)

- KEYNOTE LECTURE: Precise stratification and management of nasopharyngeal carcinoma in 2025 - From bedside to the bench (Melvin Chua)
- De-escalation in NPC treatment (Kenneth Wong)
- Endoscopic transnasal nasopharyngectomy: when and how? (Lifeng Li)
- Nasopharyngeal carcinoma in non-endemic areas (Mario Turri-Zanoni)
- Round table (Melvin Chua, Kenneth Wong, Lifeng Li, Mario Turri-Zanoni)

1.00-2.00 pm: Lunch

2.00-4.00 pm: ITAC (Moderator: Ludovic de Gabory)

- Worldwide variations in ITAC incidence (Jana Zajacova)
- Mutational landscape of ITAC (Mario Hermsen)
- New therapeutic targets in ITAC: focus on anti-drug conjugates. The ITAC / CEACAM5 project (Marion Classe)
- T4b ITAC: from unresectable to curable. Do we need a new staging system? (Davide Matavelli)
- Metachronous tumors in ITAC : do they really exist? (Laura Van Gerven)
- Round Table (Jana Zajacova, Mario Hermsen, Marion Classe, Davide Matavelli, Laura Van Gerven)

4.00-4.30 pm: Award of poster and oral presentation prizes, closure and outlook for 2026 (Antoine Moya Plana, Benjamin Verillaud, Nyall London, Robbie Woods)
